

Build your career and future

Tasmania's leading accounting and advisory firm

Welcome to WLF, where people and success merge

At WLF Accounting & Advisory, our core focus revolves around people: our valued clients and our dedicated staff are our most valuable assets. With a legacy of over 130 years, we recognise that people are at the heart of our growth and success.

A rewarding journey

When you become part of the WLF team, it's not just a job – it's an opportunity for personal and professional satisfaction.

We'll support you as you build your career and grow your potential, providing a competitive salary and incentive program, professional development, and a commitment to maintaining a healthy work life balance.

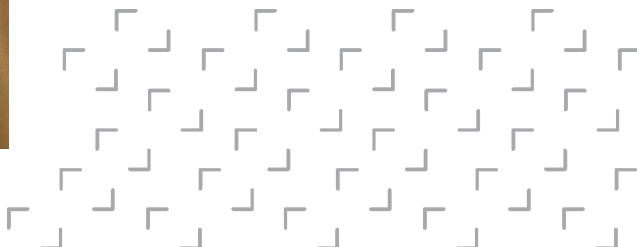

Our staff are encouraged to take part in community or volunteering initiatives that empower them to meaningfully make a difference to organisations and causes that they care about.

Chart your path

Through our Graduate Accountant Program and Undergraduate Accountant Cadetship Program we've launched the careers of hundreds of professionals. Many are still with us today, as Partners, Directors or Managers. Others have built on the foundations of their WLF career and are part of our extensive alumni, holding roles as senior accountants and financial managers in Tasmania, nationally and around the world.

When you choose WLF you are aligning yourself with an independent Tasmanian firm with a proud history of excellence. You'll be contributing to the success of our diverse client base including small businesses, corporate and list companies, government entities, not-for-profit organisations, individuals and families.

As an independent Tasmanian firm all our work is done by our team. That means you will be working with and learning from Partners, Directors and Managers, who will share their knowledge and guide you as you develop your career.

Innovation and professional development

As a recognised training employer for Chartered Accountants in Australia and New Zealand, we are committed to ongoing professions development for our people.

- We'll support you in achieving your Chartered Accountants (CA) qualification, covering costs of course fees and study materials and providing paid study leave for each module.
- We take a contemporary and innovative approach to the way we conduct business, maintaining our expertise in new and emerging technologies that deliver efficient results and value to our clients and staff.
- Regular inhouse and external training ensures our people are equipped to confidently use leading software and systems to develop solutions.
- Our WLF Mentor program means you have the chance to share information and learnings, or chat about any concerns.

Your next step

Are you driven by a commitment to delivering exceptional services and offering insightful advice and solutions?

Keep in touch and up-to-date on our Graduate Accountant Program, our Undergraduate Accountant Cadetship Program and a range of other career opportunities via our website www.wlf.com.au/careers and by following us on social media.

Join us at WLF and become part of an established firm with a thriving contemporary focus, where people, solutions and success come together.
