

Forensic Accounting, Business Valuation and Litigation Support

WLF Accounting & Advisory is built on a foundation of expertise and excellence over more than 130 years. We are committed to providing our clients with the highest standard of business advisory services, and helping them move forward to achieve their goals.

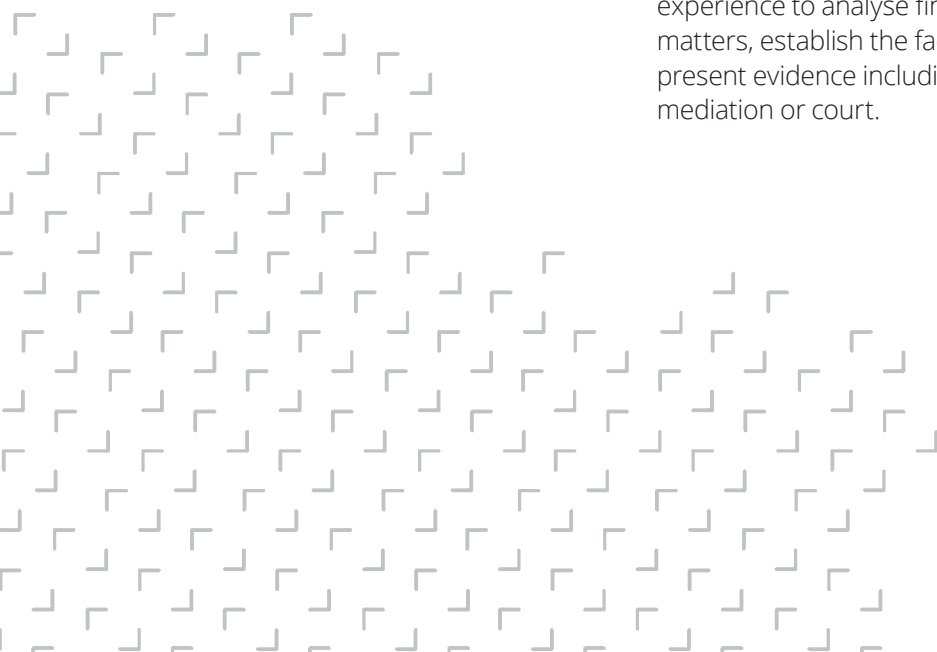

We understand that business, like life, isn't always straightforward and that disputes are a part of life, whether large or small. Our specialist forensic accounting and valuation team works with businesses, individuals and the legal profession to provide objective and timely solutions.

We pride ourselves on our ability to simplify complex financial information. We bring a broad and diverse set of skills and experience to analyse financial matters, establish the facts and present evidence including in mediation or court.

Trust us with your forensic accounting and litigation needs

Our team

Our Forensic Accounting team is headed by Partner Dean Johnson, who is a Chartered Accountant with more than 30 years expertise in public practice. Dean has been providing valuation and forensic accounting services to the SME sector for more than fifteen years.

Dean's expertise includes consultation with, and engagement by, legal advisors in the capacity of an independent expert witness. He has also been engaged for the provision of assistance for all facets of contested litigation including conciliation, provision of reports under affidavit to the Supreme Court of Tasmania and the Federal Court of Australia, settlement and appearance for examination and cross examination where required.

Dean has experience in financial investigations and analysis locally, nationally and internationally while working in Europe and the United Kingdom prior to joining the WLF Partnership.

Dean leads a team of expert advisors in our forensic accounting and litigation specialist team.
